

eclipse™

The first low-cost, ultra-small, handheld thermal imager built for every mission. Take charge of your mission with one of the most valuable tools for the military...built Bullard Tough.

Personal-Issue Thermal Imaging

Eclipse is designed to equip military personnel with thermal imaging technology. Engineered for tactical, surveillance, intervention, evidence recovery and scene assessment applications, Eclipse is built to withstand extreme conditions and yet lightweight and small enough to carry in the pocket of your personal gear.

Highlights:

- Ultra-small form factor
- Super lightweight at only 1.5 lbs.
- Easy, one button operation
- Ergonomically shaped
- Designed to fit easily in a pocket
- Quality imagery

Thermal Imaging vs. Night Vision

Thermal imaging technology requires no light to operate unlike night vision technology. While darkness and camouflage can defeat night vision, thermal imaging technology detects heat sources even on the darkest night through smoke and fog.

eclipse™

Built Bullard Tough

Eclipse is engineered for your toughest mission and is designed to be a critical tool in your arsenal. The Eclipse can be purchased with an Eclipse Powerhouse™ charger to help ensure your TI is always duty-ready. A retractable strap is also available and can be added to keep your hands free. Bullard offers an extended warranty, SmartLine™ online training and a desktop charger.

Leading the Way

Now, Eclipse makes it affordable to equip your military personnel with thermal imaging technology. Another innovation from the leader in thermal imaging... Bullard.
